

Cities with Three or More 1 Gig Providers

Data accurate as of 7/1/2016

Key Takeaways

1

TWC/Charter and Verizon Fios are missing entirely. Due to competitive pressure, we may see those providers offer 1 Gig plans in major markets like Boston and Charlotte in the near future.

Local and Mid-tier providers are often price leaders in these markets. In fact, Metronet, Webpass, Consolidated Communications, SumoFiber, Giggle Fiber, and Grande Communications all offer the lowest \$/GB in their market.

2

3

Pop. size and density don't seem to have an effect on where Gig providers choose to roll-out their services. Major metros like NYC, Philadelphia, D.C., Detroit, and Chicago are missing from this graphic.
